## Frontend developer - React, React Native, Typescript

**PROFILE** carovacdavud6@gmail.com **Languages:** English, Serbian, Bosnian, Croatian

---

I am software developer based in Novi Pazar, Serbia. Right now I'm focused on Frontend technologies, working with technologies such as Javascript, React.js, Typescript, Redux toolkit as state management, Responsive web design with Material UI and Bootstrap CSS framework. React js is my main tool but i also worked on full stack applications and applications using databases and authentication provided by Google Firebase. I also worked with the team on some projects.

### SKILLS

---

**Html, Css, Javascript, Typescript, React, React Native, Redux toolkit, React Query, Git, Bootstrap, MUI, Postman, Jira, Trello**

### PROJECTS

---

#### Football App

The latest news from world of football, match overview, live results, overview of results of all leagues in the world, top 5 leagues, player statistics, standings. Fetching data from multiple sources.
